Pure Economic Loss

New Horizons in Comparative Law

Vernon Valentine Palmer, Tulane University, USA
and **Mauro Bussani**, University of Trieste, Italy

Pure economic loss is one of the most-discussed problems in the fields of tort and contract. This book takes a comparative approach to the subject, exploring the principles, policies and rules governing tortious liability for pure economic loss in a number of countries across the world including the USA, Canada, Japan, South Africa and Denmark.

This book takes a comparative approach to the subject, exploring the principles, policies and rules governing tortious liability for pure economic loss in a number of countries and legal systems across the world. The countries covered are USA, Canada, Japan, Israel, South Africa, Japan, Romania, Croatia, Denmark and Poland, with the contributors taking a comparative fact-based approach through the use of hypothetical problems to analyze and then summarize the individual country's tort approach. Using a fact-based questionnaire, a tested taxonomy, and a sophisticated comparative law methodology, the authors convincingly demonstrate that there are liberal, pragmatic and conservative regimes throughout the world. The recoverability of pure economic loss poses a generic question for these legal systems - it is not just a civil law versus common law issue. It will be of interest to students and academics studying tort law and comparative law in the different countries covered.
