* The recodification of Title 46 of the *United States Code* has left many of us without familiar statutory bearings. The *Tulane Maritime Law Journal*, with the help of member Candace L. Cooper, created this table to assist practitioners match the old sections with the new sections. The new structure and language of the recodified Title has prevented a perfect translation of all provisions, but we have endeavored to be as thorough as possible. As an additional aid to our subscribers, the table is available on our Web page: <http://www.law.tulane.edu/tlsjournals/maritime/>.
